Weight:	25.35 lbs 11.5 kg
Wattage:	540 Watts
Voltage:	Available 120V/50~60Hz and 220-250V/50~60Hz Intl.

The Omega Commercial Mega Mouth Juicer is engineered for heavy-duty commercial use and is ideal for restaurants, juice bars, health clubs and any establishment where fresh juice is in high demand. Its extra large feed chute accommodates larger portions and even whole fruits! This results in less cutting and a greatly reduced preparation time, allowing you to concentrate more on the juicing itself. Simply flip the switch and watch as the Omega juicer extracts the maximum amount of juice from produce, in minimal time. The juicer also features immediate pulp ejection for non-stop juicing.

MMC500C / MMC502C
