

GLASS POLISHERS

GENTLY POLISH AND DRY DAMP GLASSWARE INSIDE AND OUT, SIMULTANEOUSLY IN SECONDS

BEST IN THE BAR

HANDS OFF FOR HYGIENE.

Eliminate "hand on rag" polishing and touch points to reduce potential for contamination by unhygienic hands and towels. Customers expect increased sanitation measures and Bar Maid is committed to helping businesses meet those expectations and reinforce customer confidence in cleanliness.

Simply sparkling glassware... fast.

GP-100 and GP-3 Mini Commercial Glass Polishers are key to sparkling glassware for hospitality operators for whom consistently brilliant glassware is important for maintaining their reputation. These commercial duty glass polishers with durable stainless steel body are built for continuous use. Faster than hand polishing, a single employee can polish up to 350 glasses per hour with the GP-100 or up to 290 glasses per hour using the GP-3 Mini.

- Efficient... polishing heads simultaneously polish glassware inside and out, while warm air blower dries glassware and polishing heads.
- Gentle... Soft microfiber twine material minimizes stress on glassware reducing potential for breakage.
- Saves time and money... Easily pays for itself with huge labor savings and reduced glass breakage.
- Sanitary... Customers enjoy crystal clear glassware with minimal handling by bar staff.
- Safety... Virtually no glass breakage or associated injuries results in considerable savings in potential Workers Compensation claims.
- Removable, washable polishing heads... replacement heads and champagne flute polishing head available.

SIGNIFICANTLY REDUCE GLASS POLISHING LABOR WITH THE GP-100

The GP-100 Glass Polisher is five times faster than hand polishing and suited for high volume glassware polishing by hotels, event venues, restaurants, caterers and glassware rental companies. Polish up to 350 glasses per hour. Five polishing heads, lightweight with built-in handles for ease of portability. The GP-100 is specified by major restaurant chains and used by restaurants, hotels and casinos worldwide.

POLISH ON DEMAND WITH THE GP-3 MINI

The GP-3 Mini Glass Polisher delivers sparkling results with a significantly smaller footprint and lighter weight than the popular GP-100 model. Four times faster than hand polishing, its space-saving design makes it the perfect size for use in hotel and restaurant bars, wine bars, wine tasting rooms or other "bar top" applications where space is at a premium or where portability is a must. Polish up to 290 glasses per hour. Patent Pending.

How much money could you save by polishing glassware with a Bar Maid Commercial Glass Polisher?

Bar Maid Commercial Glass Polishers are easy to use, lightweight and portable. Their use greatly reduces labor costs, broken stemware and risk of cut injuries associated with manual glass polishing, while achieving better glass polishing results.

Five highly absorbent polishing heads (three on the GP-3 Mini) and a forced hot air blower dry and polish glassware spot free in 5-10 seconds. No need to use a towel that you're not sure where its been, costly coffee filters or a dirty hand. The soft polishing heads provide a more thorough, sanitary and consistent polish all the way to the bottom of the glass and reduce risk of broken stemware and injuries. Long-lasting polishing heads are easily removable for cleaning with mild detergent (no sanitizer). The only other maintenance is occasionally cleaning the air intake on the bottom of the unit.

STEMWARE SAVINGS

GLASSWARE BREAKAGE WITH MANUAL POLISHING \$10 PER STEM	ANNUAL SAVINGS FROM REDUCED GLASSWARE BREAKAGE
Break 2 per week	\$1,040
Break 5 per week	\$2,600

LIABILITY SAVINGS
