# A GUARANTEE OF SUCCESS

THE IDEAL MACHINE THAT EASILY AND SIMPLY PREPARARES GREAT DRINKS

Appia Life has been studied for those who want a **simple and trustworthy machine**. It is the perfect coffee machine for **large companies, coffee shop chains** or wherever there is a **need to prepare an abundance of great coffee** and to be **cost-effective**.

Appia life is the coffee machine with which young talents become professional baristas; it is the machine that coffee shop chains handle every day to easily and quickly prepare coffees and cappuccinos. It is the means to make an excellent drink, and anyone can use it.

Life.

APP  
life.

It is called Appia Life because it is the coffee machine for life: it never abandons you!

**PRODUCTIVITY &  
CONSISTENCY**

PRODUCTIVITY & CONSISTENCY

# UP TO 250 CAPPUCCINOS\*

Appia Life guarantees high daily productivity and an even more consistent result in the cup.

The **SIS SYSTEM** optimizes the extraction and compensates any tamping errors so that it reduces waste and makes regularly perfect coffees.

The significant variation of the machine is the introduction of the **EASY CREAM TECHNOLOGY** that allows the automatic frothing of the milk. The double wand froths the milk and stops just as it reaches the preset temperature.

## ... IN A SIMPLE AND FAST WAY

\* Appia Life 2 groups Volumetrics

## Soft Infusion System

### PROBLEM

- UNEVEN AND UNDER-EXTRACTED COFFEE

### SOLUTION

- SOFT INCREASE OF WATER PRESSURE

### BENEFITS

- **MAXIMUM EXTRACTION EFFICIENCY**
- **PREVENT CHANNELING**

## Easycream

### PROBLEM

- LOW SKILLED BARISTA
- DELIVERY LARGE AMOUNTS OF CAPPUCCINO

### SOLUTION

- AUTO-STEAMER WITH AIR-STEAM COMPRESSOR
- ADJUSTABLE TEMPERATURE PROBE
- VORTEX GENERATOR NOZZLE

### BENEFITS

- **CONSISTENT HIGH-QUALITY FROTH**
- **FLEXIBILITY IN PREPARING DIFFERENT TYPE OF CREAM**
- **FASTER PREPARATION**

## ENERGY SAVING

# -13% ENERGY CONSUMPTION

The **boiler** of the Appia Life has **DRYTEX THERMAL technology insulation** that **reduces 13% of energy consumption** compared to the Appia II, and it comes as standard series in the whole range of the machine.

Appia Life guarantees a **20% reduction in environmental impact**. The LCA [Life Cycle Assessment] analysis confirms that the Appia Life with its new thermal system, new materials, and general optimization of the mechanical components, has 20% less environmental impact compared to the Appia II.

# -20% ENVIRONMENTAL IMPACT

## Drytex material

To insulate the boiler, we chose to use the innovative **Drytex** material. It is made of a combination of hygroscopic fibers capable of offering excellent thermal insulation and increase the performance of the product.

The material is the same used on sports apparel; the special **Drytex** fabric has sockets that trap the air, thus guaranteeing isolation.

APPIA  
Life.

## Insulated boiler

### PROBLEM

- HEAT DISPERSION
- HIGH ENERGY CONSUMPTION

### SOLUTION

- INNOVATIVE INSULATING MATERIAL

### BENEFITS

- **-13% ELECTRIC ENERGY CONSUMPTION**

# LCA analysis

Life Cycle Assessment is a structured and standardized method used worldwide that **quantifies the potential impacts on the environment** and human health associated with the use of a product, starting with respecting resources and emissions.

# ERGONOMICS

ERGONOMICS

## GREAT COMFORT MEANS...

We believe that in Nuova Simonelli, the best way to reach excellence is to increase simplicity and make user-friendly products. Our positive approach has always pushed us to improve and study the best way to facilitate the barista in his job.

Appia Life makes productivity even more efficient thanks to its ergonomic style, improving the service speed, and assisting the barista in day-to-day performances.

## ... HAPPY BARISTAS

APP  
life.

nuova  
**SIMONELLI**  
The coffee machines you can trust.

# Ergonomics features

## REVERSE MIRROR

This feature allows the barista to check the coffee dripping and cleanliness of the filter holder from a much more comfortable position.

## ALIGNED CUP WARMER

The cup warmer is aligned with the top of the machine. Thanks to this feature, the user has a more comfortable reach and speeds up the working process.

## PUSH BUTTON PANEL

The push-button panel has been re-created to be user friendly and more resistant in the long run.

## EASY MAINTENANCE

Appia Life has been designed to be more efficient when it comes to maintenance. The complete new style of the machine facilitates the user in any operations routine. Its new adjustable nozzle attachment, new side opening system and redesigned groups, are all features that allow it to be majorly efficient.

**EVEN MORE  
ADVANCED**

## TFT display

The new XT version completes the Appia Life machines family, available in 2 and 3 groups in the volumetric version [5 dispensing keys per group].

The performance remains unchanged compared to the 2 and 3 group Appia Life models, but the Appia Life XT has evolved in the form and in the innovative details that improve the final results.
